Dear Parents & Students,

We live in a society exquisitely dependent on science and technology, in which hardly anyone knows anything about science and technology.

Science is inexplicably linked with our lives and helps us to understand the world around us better. By engaging with this subject, students learn to think, solve problems and make informed decision. As an initiative to generate curiosity, enquiry and higher order thinking amongst the learner, the board is organising the CBSE science challenge for students of Grade VIII to X. The theme is **Science, environment and sustainability and there is no fee for the participation.** Challenge would be conducted through two rounds (within school and inter school)

Note:- Interested students should give their names positively by Monday, 10.04.2023 to their respective grade teacher.
